This will acknowledge your letter of May 27, asking for permission to copy extracts from the speech which I made before the American Society of Newspaper Editors on April 14, 1971. Please feel free to use whatever portions of the speech you desire. We are hopeful that the text of this speech can have as wide dissemination as possible among schools and colleges since it is designed to set the work of intelligence in a more reasonable perspective than it has been accorded in recent years.

Sincerely,

(SIGNED) [REDACTED]
